CHW Oral Health Program

Free Oral Health Screening and Fluoride Varnish Treatments
for Preschools and ChildCare Centers in the East Valley.
Ahwatukee, Guadalupe, Chandler, Tempe, Mesa, Queen Creek & Gilbert

We would like to come to your childcare center or preschool to provide:

- 15 minute kid-friendly oral health presentation to each classroom
- Fluoride varnish for all children 0 -5 who have returned a parent consent form.
- Oral health education to parents
- English and Spanish instruction available

Fluoride Varnish is a protective coating which is brushed on the teeth to stop cavities from forming and to slow down cavities that may have started.

- Arizona kids have more cavities than those in other states
- 52 million hours of school time are lost nationally due to dental pain
- The lower the income the greater the need
- Application of fluoride varnish has been shown to reduce the incidence of early childhood tooth decay in combination with oral health education for parents

FIRST THINGS FIRST

First Things First (FTF), approved by Arizona voters, works to ensure that our youngest children have access to quality early childhood experiences so they will start school healthy and ready to succeed.
